

Stockwood Vale Golf Club Committee Meeting

June 22nd 2022

Present: M Edenborough, J Gray, L Cheal, A Hooper, P Dawson, A Jordan
(minutes)

Apologies: A Yeatman, J Baker, I Haddon.

The minutes of the previous meeting were agreed.

Matters Arising.

The acquisition of the solar powered defibrillator for the 10th Tee is ongoing.

It was noted that £1664 had been paid to the 2021 Captain's charity. The committee had agreed at the May meeting that this amount will be £1800. JG was asked to pay the difference asap.

Treasurers Report:

TC Group provided an in-month report. In-month and YTD reports will be available in future.

Matters arising prior to meeting and answered in advance:

PD: Please can we have a sign regarding the rules on bees in bunkers?

ME: This is a permanent local rule. It has been reposted as a reminder.

PD: There are still members who routinely fail to rake a bunker. Please can we have a reminder sent?

ME: Sadly, I think a reminder notice would be a waste of time - anyone who selfishly fails to rake a bunker isn't going to pay any attention to a notice.

PD: Some rakes are broken please can these be replaced?

ME will speak to Steve about the rakes.

New Items for discussion:

AY: Please can I request the purse usually allowed to support the captain's charity day is allowed again this year.

A payment of £600 was agreed to by the committee.

LC: Players booking tee times following a Senior Men's 4 Ball are usually held up and the final group receive a lot of complaints. Please could the pro shop advise players that they are behind a competition and that play could be slow?

ME: This should already happen but I will remind the pro shop team.

AOB:

AH: Congratulations to Andrea Jordan on becoming Ladies Club Champion 2022

AJ: Thanked the committee for their support with the Ladies Championships. Especially AH for the Facebook updates and ME for advertising the event and moving the tees for Day 2.

ME: The lacquer has been laid on the 4th hole buggy path. Unfortunately, it has not resolved the problem of buggies skidding when the brakes are applied. We are looking at an alternative path route for buggies.

Date of the next meeting – Wednesday July 27th 2022 at 19:00
