Comp Entry System ME had issued a paper outlining the proposals, and a discussion ensued. The underlying principle, as there will be two ways to enter a comp , is, fairness of entry and equal opportunity. There is the possibility to have the Online and PSI entry commencement dates/times different, however, having talked to other clubs who are already using the system, they are setting the two systems simultaneously .

It has been agreed that the first two competitions to use the system will be the Seniors Competition at the end of November and the Mid Month competition in December for the club.

None of these day/ timings are “set in stone” and can be amended if necessary . We will review again in March.

Snrs/ladies Jumpers It was agreed that these will be paid for out of the Main Fund.

**A.O.B.**

**Avalon League Fees** AY advised us that the Avalon League fees have been waived for this year as the league are “cash rich”. This is a one year moratorium.
